Everything is made of chemicals

WORKING FOR THE SAFE USE OF CHEMICALS

ABOUT US

The European Chemicals Agency protects you and the environment from harmful chemicals.

Chemicals make modern life possible – all materials and products are made of chemicals. Better knowledge and regulation of harmful chemicals protects workers, consumers and the environment, makes recycling easier, and encourages industry to develop safer alternatives.

Chemicals play a key role in circular economy

Impacting the lives of millions of people in Europe and worldwide

HOW WE HELP YOU

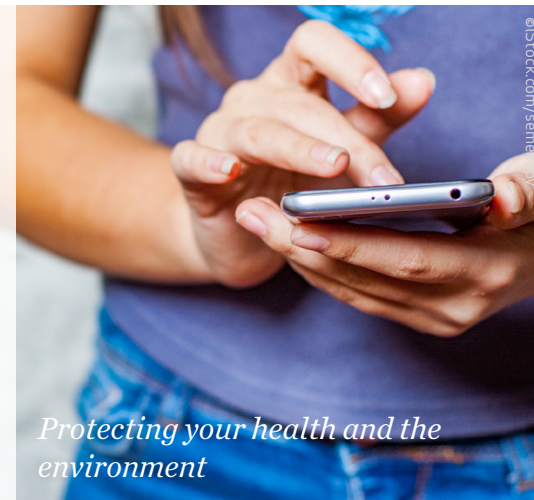

We help make sure that:

- Chemicals on the EU market are safe to use.
- The most harmful chemicals are replaced with safer alternatives.

WANT TO KNOW MORE?

How does a chemical affect the human body? Is it harmful to the environment? Which chemicals are used in everyday products? Learn more about how to use chemicals safely in your everyday life:

- Search for chemicals in the largest chemicals database in the world
- Browse our news on the ECHA website

Protecting your health and the environment

International workplace - colleagues from all over Europe

WORK WITH US

If you are eager to help protect people and the environment, we offer opportunities in a wide variety of professional fields.

We also offer traineeships for recent graduates who want to gain experience in a European institution and develop their skills.
