1. Process for the adoption of the opinion

The notification for the administrative change was submitted to ECHA on **9 January 2023**, and recorded in R4BP under case number **BC-CE083625-47**.

Following its acceptance by ECHA, the evaluation of the notification was initiated on **16 February 2023**.

The evaluation included a check that the proposed change of an existing authorisation is of a purely administrative nature involving no change to the properties or efficacy of the biocidal product in accordance with Article 3(1)aa of the BPR.

The scope of the assessment itself was based on and limited to the information provided by the authorisation holder in the supporting document for the notification for an administrative change of a Union or simplified authorisation under Regulation (EU) No 354/2013 supplied via R4BP 3.

ECHA prepared this opinion containing the conclusions of its assessment.

2. Detailed opinion and background

2.1. ECHA opinion

During the evaluation, ECHA has assessed whether the change made in the SPC document provided by the applicant is an administrative change in accordance with Implementing Regulation (EU) No 354/2013.

It is ECHA's opinion that the following change to the biocidal product sought by the authorisation holder is a change falling under Article 3(1)(aa) of the BPR, and, after the implementation of the change, the conditions of Article 19 of the BPR will still be met:

- Title 1, section 1 of the Annex to the Regulation (EU) No 354/2013 - *Name of the biocidal product - change N° 2: Addition of a name for the biocidal product where there is no risk of confusion with the names of other biocidal products*

Accordingly, it is proposed that the Commission amends the existing authorisation with the below listed administrative changes to the biocidal product sought by the authorisation holder.
